

Vacation/Security House Watch Program

Other community services offered include a variety of crime prevention programs available to citizen groups, churches, and businesses. A residential and business security watch program is available to persons that plan to leave on vacation or seasonally. Application forms for the Security Watch program are available at the Eagar Police Department during business hours, or you can down-load a copy of the application here.

Save Our Seniors (SOS)

In many towns and communities such as ours, there are elderly or disabled people who live alone. The Eagar and Springerville Police are concerned about these people and would like to

do something to help. We have a program known as "Save Our Seniors" (S.O.S.).

The White Mountain Regional Medical Center Hospital Auxiliary and the Apache County Communications Dispatch Center are our partners in the Save Our Seniors (S.O.S.) Program.

The White Mountain Regional Medical Center Hospital Auxiliary answer the S.O.S. calls during the weekdays and the Apache County Communications Dispatch Center answer the calls on the weekends and Holidays. If they do not receive a daily call from the S.O.S. participant the Police Department will go to their house to check their welfare.

The intent of this program is to make sure that all elderly or disabled people have someone contact them daily to make sure they are O.K. There is no cost to participate in the S.O.S. Program. The persons wanting to participate have to complete an application with the Police Department. If you live in Eagar you give the completed form to the Eagar Police Department. (In you live in Springerville you give the completed form to the Springerville Police Department.)
